Office Action Summary

Art Unit: 1714

1. The amendment received August 27, 2002 has been made of record.

Claims 1-8, 11-18 and 20 are pending.

2. Claims 1-4, 6-8, 11-13 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Hayashi et al or Morgan et al.

3. Claims 1-4, 6-13 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hayashi et al or Morgan et al.

Each of these rejection is maintained for reasons of record.

Applicant arguments concerning the density of the filler of Hayashi et al are not persuasive since the density of the fillers of the patent are "balk" densities and would be expected to be lower than the specific densities.

Regarding applicants argument concerning "for subsequent vulcanization", the limitation is seen as an intended use and is not persuasive of patentability.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-8, 11-18 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicants filed to address this rejection in the amendment.

6. Claims 5, 14-17 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 1714

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
